The quest for Lewannick's cross

Why has Lewannick's landmark got no cross? Presumably there would have been at some time a carved cross topping the granite pillar, fitting the tenon at the top? Has this been in place in living memory? Are there any photographs, drawings or stories about this? Does the cross lie buried in the ground nearby, or was it removed and taken elsewhere? Perhaps someone knows where it might be?

It would be great if we could find the missing part and restore it to its rightful place. Or, if we could find a photograph or drawing we might be able to have a replacement made. We could probably obtain a grant to cover the costs.

If can you help with any information about the existing pillar, or the missing part, please contact me (address/phone at the bottom of back page).

As always we are interested in all historical information connected with the parish.

David

LEWANNICK PARISH COUNCIL

We met at Lewannick on Thursday 21 April. The seats throughout the parish were discussed and it was agreed that we would invite a contractor to power wash and stain all the seats. Cllr C Beckly volunteered to repair and install a seat at Example Cross. New bark will also be put around the playing area at Lewannick. An inspection has also been made of Polyphant Green. Cllr T Ellis has volunteered to remove chunks of wood/stump and corrugated tin sheeting that were in situ. We have also been advised to remove the Cypress tree at Polyphant. This will be felled on the 26 April and replaced by an extra heavy standard Liriodendron tulipifera.

Planning applications which we supported were: - TPO Oak Tree Lodge, 12 Serpells Meadow, Mr W J K Woohidge removal of two minor low branches of oak tree. 6 Cottage Gardens, Lewannick R J Bond. Erection of single storey extension to provide a living room and dining room.

Applications received from NDCD included: Tinney Hall Cottage, Lewannick Mr and Mrs S Basford, refused. Mr R W Dinnis, Laurel Cottage, approved, Mrs S Couper, Trelaske Manor, approved, Mr and Mrs E G Sleep, Trevadlock Farm, approved.

Cheques for payment were made to David Eno £30 (newsletter), Mr G Bateman £70 (filling in of septic tank, Polyphant), £80 for bark Lewannick Playing Area and £22 BJV for maintenance of bus shelter, Lewannick.

The Clerk was requested to contact our beat manager PC T Lancaster regarding: a trailer that is parked outside of Lewannick Primary School and vehicles that are parking on the pavement at Medrow. It was also suggested that vehicles are reversing from their prospective driveways onto the highway in Lewannick.

Our next meeting will take the form of a PARISH MEETING followed by our A G M. This will be held at LEWANNICK VILLAGE HALL at 19.30hrs. During the parish meeting it has proved extremely useful historically if the various organisations could send a copy of their annual report to the Clerk, Alisa, Medrow, POLYPHANT, PL15 7PS. Members of organisations within the parish are warmly invited and encouraged to come to our PARISH MEETING. It is a useful tool for us to establish and understand what is happening within the parish. We have successfully used the PARISH MEETING as a barometer to decide to whom grants have been awarded.

Whitmans weather

April is of course renowned for it's showers and we seem to have had our fair share this month - with some beefy ones amongst them. It won't come as any surprise therefore to hear that this April has been at least one and a half inches wetter (at 4.5 inches) than last with only two thirds as many dry days.

We've been done!! Well actually, we haven't really - because during the year to date we have enjoyed at least one more dry week than we had at this point in 2004. What is even more surprising is that we have had 6 inches less rain than during the same period last year. So why has it been so difficult to get those lawns cut? (All answers on a post card to the editor please!)

So what can we expect for May? Don't ask me - I gave up trying to forecast the weather in Cornwall within twelve months of moving down here from the Midlands where such matters are much more predictable ! If last year's performance is anything to go by then we should be ok - with at least 22 dry days and less than 1.5 inches of the wet stuff.

Guess we'll have to wait and see!
