

Lewannick, Polyphant & Trevadlock Newsletter

With energy prices set to rise yet again we'll all be paying more for electricity and other fuels. Generating your own power is not really a viable proposition at present, but cutting down on your use of electricity is easy and costs little.

Did you know that if every household in the country changed two standard light bulbs for low energy bulbs we could close down two power stations? The new, low energy bulbs use approximately a tenth of the electricity of conventional bulbs and have never been cheaper. They are widely available in supermarkets and DIY stores, and online although it pays to shop around as prices vary hugely. Trago Mills have several types for under £2 now. Low energy bulbs last up to 10 times longer than standard bulbs and will not only cut your energy consumption and help the environment, but will also save you money! Keep lights and electrical appliances turned off when you are not using them.

If you are changing household appliances choose ones with the energy saving recommended logo and go for an A or A+ rating. They cost little more than less efficient models these days. Keep fridges and freezers defrosted as they use more power when they get iced up.

If you are reviewing your home heating and have 1/2 acre of land or more consider a ground source heat pump. These concentrate heat from the ground and although they use electricity they produce up to four times more heat than other methods of electrical heating and last 25 years with no maintenance. Government grants are available. The only UK manufacturers are Kensa Engineering in Falmouth. Solar water heating panels are also worthwhile and can save up to 70% of your annual water heating costs. However, cutting down your heating needs by improving insulation is by far the cheapest option, and the biggest money saver.

To find out more visit our new Energy & Environment page at www.lewannick.info.

at The Royal Cornwall Show**

LEWANNICK PARISH COUNCIL

We have met on two occasions this month. Firstly, an Extraordinary Meeting was called in order to discuss *Planning Application No 2006/1201 for the erection of nine two storey three bedroomed, and two two storey bedroomed, houses for Key Workers at Bowden Derra, Polyphant. The meeting was held in Polyphant and was well attended. Following the meeting an ordinary meeting was held and the Council have voted to not support the application on the following grounds: Policy HSG2, 3.34 ... these minor villages do not have the services or status to support or warrant significant levels of development." ECN2 P.36 4.25 of the local plan states - expansion of rural businesses will be carefully assessed to ensure that the scale of development and operations remains compatible with the character and amenities of the surrounding area. The applicants are suggesting that this development could come under Affordable Housing in the Local Plan. Specifically Paragraph 3.68 states 'people employed in the local area who need to live closer to their employment or the local community' and 'people offered a job in the locality but who cannot take it due to the lack of affordable housing', but the ensuing policy numbers still predominantly mention 'local needs'. The only restrictions on occupancy actually covered by the Local Plan deals only with agricultural workers (HSG 4). The Report to the Secretary of State for the Environment dated 13.2.01 covering a public enquiry into planning applications on the Bowden Derra site stated: Par 52 ... the cumulative effect of the proposals (for new living units) in addition to the new development that has already taken place and under construction, would be a significant spreading of built development at the site that would be out of scale with the surrounding landscape and a major intrusion into the AGLV. Par 69 ... the application sites are in the open countryside where PPG 7 advises that building should be strictly controlled. These two paragraphs would apply to this application.

Our monthly meeting was held on Wednesday 19 July. We initially met on Polyphant Green and did a walk of the area. It was noted that there were areas where large stones needed moving, roots from old trees removed, stinging nettles cleared etc. We are also investigating further improvements to this conservation area and when detailed reports are drawn-up from respected authorities an open meeting will be called in order that the whole community can voice their opinions.

Planning Application No 2006/01400 Medrow, Medrow Lane, Polyphant for Mrs S Bateson erection of garage was supported.

NCDC have approved application for

The Archer Arms

Going fishing?

Lewannick Post Office shop is now selling day tickets to fish on 13 miles of the excellent Launceston Anglers' Association waters. This includes the beats below Lewannick from Two Bridges to about a mile downstream of Trekland Bridge, beats on the Carey and the main River Tamar

For those who are keen to fish for Brown Trout, Sea Trout and Salmon this is a great service so when expecting summer visitors, warn them to pack a rod and enjoy a peaceful day by one of our stunning Cornish Rivers. It certainly makes a change from going to the Eden Project.

St Martin's Church would like to thank everyone who helped with, and attended, this year's Church Fete. The Fete was well supported and an enjoyable time was had by all. Nearly £900 was raised for church funds, which was a fantastic result!

Embroiderers Guild, Inny Vale Branch

Next meeting 17th August at Polyphant Chapel Hall from 2-4.30pm. Further information tel. Bettie on 86381.

Weather

The rainfall at Lewannick for the month 26/6/06 to 25/7/06 was 39.3mm (1.55in) and in Polyphant 22.5mm (0.88in) of rain fell. On 18th July an air temperature of 30.3°C (86.5°F) was recorded in Lewannick. This 'in the shade' reading is the highest since our records started in 2003. The rainfall in July for both 2004 and 2005 was around 56mm, roughly half of the 2003 figure. This month so far it has been only 17mm!
